PROFESSIONAL
PHARMACY DRAWER TOWERS

HINGE SYSTEM

- ❑ Made in Austria .
- ❑ Metal hinge, nickel plated,
110 degree opening angle
with integrated BLUMOTION .
- ❑ Free door to cabinet assembly and removal without
any screw .
- ❑ The new BLUMOTION closes cabinet door,
silently and effortlessly, even when closed
with undesired force.
- ❑ BLUMOTION provides perfect motion, bringing
comfort to all.
- ❑ The adaptive system adjusts itself to the closing
speed and the weight of the door.

DRAWERS RUNNER SYSTEM

- ❑ **Full extension** enables optimal storage space utilization and because they improve ergonomic workflows.
- ❑ **Quiet movement and self closing.** TANDEM ensuring smooth running action for the lifetime. Self-closing feature ensures the drawer's complete closing
- ❑ **Slow motion** reduces the force required for closing. Adaptive system – more than just dampening. This next generation of BLUMOTION reduces the forces involved in closing drawers and pull-outs to provide a quiet and easy closing movement .
- ❑ **Durable and robust** architecture to support the heaviest load. The bridge block design supports the runner system over the entire length of the opening and closing action. It provides a secure and controlled closing action even when fully loaded and it provides a precise gap capability.
- ❑ **Ease of use** and precise alignment. drawer assembly is just a matter of simple push . This gives you the advantage of fast , simple & accurate fitting , simple and precise way to adjust the front spacing .

CONSTRUCTION OF CABINETS

CABINETS & DRAWER BODIES

- ❑ Made with bent steel sheet structures from one integral part without welding and without connections or joints for added durability and to avoid the weaknesses at the joints . In order to be easy cleaning and sterilizable ensuring a special treatment and the surface is entirely painted.
- ❑ Sides are made of double wall steel sheet each at the left and right.
- ❑ The bodies are provided with 4 connection holes 2 at the right and 2 at the left lateral walls to screw the cabinets at the place of installation.
- ❑ Effective modular system with combined flexibility
in coordination with exceptional functionality
and quality to facilitate changing of doors and drawers with different sizes at any time.
- ❑ Body of drawers is made of steel sheet .
- ❑ Bottom and sides are fabricated from bent sheet from one integral part.
- ❑ Drawers front and sides are made with double wall sheet.

WORK TOP SURFACES

❑ CORIAN® Solid surface

- Use: Areas where joint free tops are essential. Clean room workstations.
- Advantages: seamless work tops, large range of colors.
